Item 4: Advisory Business

Description of Advisory Firm

AlphaOmega Wealth Management, LLC (hereinafter referred to as “AOWM”, “we”, “firm”, and “us”) became registered as an Investment Adviser with the State of Nebraska in 2022. John Dannenbring is the principal owner of AOWM.

Types of Advisory Services

Investment Management Services

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Financial Planning Services

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address some or all of the following areas of concern. The Client and AOWM will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Business Planning:** We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.
- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.
- **Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Financial Planning Services are offered via Ongoing or Project-Based engagements:

Ongoing Financial Planning. This service involves working one-on-one with a planner over an extended period of time. By paying a fixed monthly fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up-to-date.

Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefits, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed-upon actionable steps have been carried out. On an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

Project-Based Financial Planning We provide Project-Based Financial Planning services on a limited scope one-time engagement for Clients looking to address specific questions or issues. The Client may choose from one or more of the above topics to cover or other areas as requested and agreed to by AOWM. For Project-Based Financial Planning, the Client will be ultimately responsible for the implementation of the financial plan.

Employee Benefit Plan Services Our firm provides employee benefit plan services to employer plan sponsors on an ongoing basis. Generally, such services consist of assisting employer plan sponsors in establishing, monitoring, and reviewing their company's participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure, and participant education.

In providing employee benefit plan services, our firm does not provide any advisory services with respect to the following types of assets: employer securities, real estate (excluding real estate funds and publicly-traded REITs), participant loans, non-publicly traded securities or assets, other illiquid investments, or brokerage window programs (collectively, "Excluded Assets").

Tax Return Preparation We provide tax preparation services for our Clients to assist with the filing of federal and state tax returns for individuals and businesses. We may ask for an explanation or clarification of some items, but we will not audit or otherwise verify Client data. The Client is responsible for the completeness and accuracy of information used to prepare the returns. Our responsibility is to prepare the returns in accordance with applicable tax laws. We will utilize the services of a third party accounting, bookkeeping, and tax preparation firm to facilitate the preparation and filing of your tax return and we will work with you and the third party in order to gather the necessary information as part of this service. We may observe opportunities for tax savings that require planning or changes in the way you handle some transactions. While an engagement for tax return preparation does not include significant tax planning services, we will share any ideas we have with you and discuss terms for any additional work that may be required to implement those ideas.

Client Tailored Services and Client Imposed Restrictions

We tailor the delivery of our services to meet the individual needs of our Clients. We consult with Clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the Clients' investment and/or planning needs.

Clients are able to specify, within reason, any restrictions they would like to place as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to AOWM in writing. AOWM will notify Clients if they are unable to accommodate any requests.

Wrap Fee Programs

We do not participate in wrap fee programs.

Assets under Management

As of December 31, 2023, AOWM reports \$3,195,181 in discretionary assets under management ("AUM") and no non-discretionary assets under management.

Item 5: Fees and Compensation

Please note, unless a Client has received this brochure at least 48 hours prior to signing an investment advisory and/or Financial Planning Agreement (collectively, "Client Contract"), the Client Contract may be terminated by the Client within five (5) business days of signing the Client Contract without incurring any fees. How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Client Contract for more detailed information regarding the exact fees you will be paying.

Investment Management Services

Investment Management is available for Clients participating in our Ongoing Financial Planning. Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

Account Value	Annual Advisory Fee
\$0 - \$500,000	1.35%
\$500,001 - \$1,000,000	1.00%
\$1,000,001 - \$5,000,000	0.75%
\$5,000,001 - \$10,000,000	0.65%
\$10,000,001 and Above	0.50%

The annual fees are negotiable, prorated and paid in arrears on a monthly basis. Fees are based on the account balance on the last business day of the billing cycle according to the tiered chart above. No increase in the annual fee shall be effective without prior Client consent.

Advisory fees are directly debited from Client accounts held at an unaffiliated third-party custodian, or the Client may choose to pay by electronic funds transfer, credit/debit card and check. Accounts initiated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 15 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Financial Planning

- *Ongoing Financial Planning* - Ongoing Financial Planning consists of an ongoing flat fee that is paid monthly, in arrears, at the rate of \$150 - \$500 per month. The fee may be negotiable in certain cases at the discretion of AOWM. Fees for this service may be paid by electronic funds transfer, credit/debit card and check. This service may be terminated by either party with 15 days' notice. Upon termination, the fee will be prorated and any unearned fee will be refunded to the Client.

At the discretion of AOWM, Clients may be eligible for discounts when combining Investment Management with our Ongoing Financial Planning.

- *Project-Based Financial Planning* - We offer Project-Based Financial Planning engagements from \$500 - \$10,000. Fees are based on complexity and scope of the project, and may be negotiable in certain cases. Half of the fee is due at the beginning of the process and the remainder is due at completion of work, however, AOWM will not bill an amount above \$500 more than 6 months in advance. Fees for this service may be paid by electronic funds transfer, credit/debit card and check.

In the event of early termination any prepaid but unearned fees will be refunded, any completed deliverables of the project will be provided to the Client and no further fees will be charged.

Employee Benefit Plan Services

Account Value	AOWM's Fee
\$0 - \$500,000	1.00%
\$500,001 and Above	0.50%

AOWM will be compensated for Employee Benefit Plan services according to the value of plan assets not to exceed 1.00% of the total plan assets. This does not include fees to other parties, such as record keepers, custodians, or third-party administrators. Fees for this service are either paid directly by the plan sponsor or deducted directly from the plan assets by the custodian on a quarterly basis.

Tax Return Preparation

The fees for Tax Return Preparation will be determined based on the complexity of the return and quality of recordkeeping. The fees may be negotiable in certain cases, will be agreed upon at the start of the engagement, and are due at the completion of the engagement. Clients are not required to utilize any third party products or services that we may recommend and they can receive similar services from other professionals at a similar or lower cost.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals, high net-worth individuals, corporations and other businesses.

We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Technical analysis involves using chart patterns, momentum, volume, and relative strength in an effort to pick sectors that may outperform market indices. However, there is no assurance of accurate forecasts or that trends will develop in the markets we follow. In the past, there have been periods without discernible trends and similar periods will presumably occur in the future. Even where major trends develop, outside factors like government intervention could potentially shorten them.

Furthermore, one limitation of technical analysis is that it requires price movement data, which can translate into price trends sufficient to dictate a market entry or exit decision. In a trendless or erratic market, a technical method may fail to identify trends requiring action. In addition, technical methods may overreact to minor price movements, establishing positions contrary to overall price trends, which may result in losses. Finally, a technical trading method may underperform other trading methods when fundamental factors dominate price moves within a given market.

Charting analysis involves the gathering and processing of price and volume information for a particular security. This price and volume information is analyzed using mathematical equations. The resulting data is then applied to graphing charts, which is used to predict future price movements based on price patterns and trends. Charts may not accurately predict future price movements. Current prices of securities may not reflect all information about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.

- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Passive and Active Investment Management We may choose investment vehicles that are considered passive, active, or a combination of both styles.

Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio.

Active investing involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark. Actively managed funds are also designed to reduce volatility and risk.

We may engage in both passive and active investing in your portfolio. However, we strive to construct portfolios of funds and individual securities that we believe will have the greatest probability for achieving our clients' personal financial goals with the least amount of volatility and risk rather than attempt to outperform an arbitrary index or benchmark.

Specific investment selections are based on a number of factors that we evaluate in order to select, what we believe to be, the highest quality funds or individual securities for our clients. These factors include but are not limited to underlying holdings of funds, percentage weighting of holdings within funds, liquidity, tax efficiency, bid/ask spreads, and other smart/strategic beta factors. These factors may or may not result in the lowest cost ETFs and mutual funds available when utilizing funds in a client's portfolio, but we strive to keep internal fund expenses as low as possible.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the

distribution of additional capital gains for tax purposes. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Concentration Risk: Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Commercial Paper is, in most cases, an unsecured promissory note that is issued with a maturity of 270 days or less. Being unsecured the risk to the investor is that the issuer may default.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) trading of an

ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

AOWM and its management persons have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

AOWM and its management persons have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

AOWM and its management persons have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of AOWM or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Neither AOWM or its management persons is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

Neither AOWM or its management persons is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Neither AOWM or its management persons have any relationship or arrangement with any related parties.

AOWM only receives compensation directly from Clients. AOWM does not receive compensation from any outside source.

Recommendations or Selections of Other Investment Advisers

AOWM does not recommend or select other investment advisers for our clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm has a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This Code of Ethics does not attempt to identify all possible conflicts of interest, and compliance with each of its specific provisions will not shield our firm or its access persons from liability for misconduct that violates a fiduciary duty to our Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Access persons shall offer and provide professional services with integrity.
- Objectivity - Access persons shall be objective in providing professional services to Clients.
- Competence - Access persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Access persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Access persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Access persons conduct in all matters shall reflect the credit of the profession.
- Diligence - Access persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its access persons, or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, principal transaction, among others.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm, its access persons, and its related persons may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest, our Code of Ethics may require that we restrict or prohibit access persons' transactions in specific reportable securities. Any exceptions or trading pre-clearance must be approved by AOWM's Chief Compliance Officer in advance of the transaction in an account. AOWM maintains a copy of access persons' personal securities transactions as required.

Trading Securities At/Around the Same Time as Client's Securities

From time to time our firm, its access persons, or its related persons may buy or sell securities for themselves at or around the same time as they buy or sell securities for Clients' account(s). To address this conflict, our Code of Ethics requires that we purchase or sell securities for our clients' accounts, if suitable and appropriate, before purchasing or selling any of the same securities for any accounts owned by us or our access persons.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

In recommending broker-dealers, we have an obligation to seek the "best execution" of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the broker-dealer's services. The factors we consider when evaluating a broker-dealer for best execution include, without limitation, the broker-dealer's:

- Execution capability;
- Commission rate;
- Financial responsibility;
- Responsiveness and customer service;
- Custodian capabilities;
- Research services/ancillary brokerage services provided; and
- Any other factors that we consider relevant.

With this in consideration, our firm recommends Altruist Financial LLC, ("Altruist"), an independent and unaffiliated SEC registered broker-dealer firm and member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). Although clients may request us to use a broker-dealer of their choosing, we generally recommend that clients open brokerage accounts with Altruist. We are not affiliated with Altruist. The Client will ultimately make the final decision of the Custodian to be used to hold the Client's investments by signing the selected broker-dealer's account opening documentation.

Research and Other Soft-Dollar Benefits

We currently do not receive soft dollar benefits.

Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transactions and this may cost Clients money over using a lower-cost custodian.

The Custodian and Brokers We Use (Altruist)

For the benefit of no commissions or transaction fees, fully digital account opening, a large variety of security options and complete integration with software tools, AOWM recommends Altruist Financial LLC, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member (“Altruist”). AOWM does not receive any research or other soft-dollar benefit by nature from its relationship with Altruist Financial LLC, nor does AOWM receive any referrals in exchange for using Altruist Financial LLC as a broker dealer.

Aggregating (Block) Trading for Multiple Client Accounts

Investment advisers may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy to implement all client orders on an individual basis. Therefore, we do not aggregate or “block” client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Item 13: Review of Accounts

Clients who engage us for investment management services will have their account(s) reviewed regularly on a quarterly basis by John Dannenbring, Founder and CCO. The account(s) are reviewed with regards to the Client’s investment policies and risk tolerance levels.

Events that may trigger a special review would be unusual performance, addition or deletions of Client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client’s needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

AOWM will not be required to provide written reports to Investment Management Clients on an annual basis due to client’s access to investment reporting within the custodian, Altruist. If AOWM does provide a written report, we urge Clients to compare these reports against the account statements they receive from their custodian.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. We may compensate unaffiliated third parties for Client referrals.

Item 15: Custody

AOWM does not accept custody of Client funds except in the instance of withdrawing AOWM's management fees and for disbursing funds to accounts as specifically designated by the client with a standing letter of instructions or other similar asset transfer authorization ("SLOA"). For Client accounts in which AOWM directly debits their management fee:

- i. AOWM will send a copy of its invoice to the custodian at the same time that it sends the Client a copy. Clients who custody at Altruist will have invoices sent to their client portal within Altruist.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the management fee.
- iii. The Client will provide written authorization to AOWM, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account invoices or reports that we may provide to you and notify us of any discrepancies. Our invoices or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

AOWM can establish standing letter of instructions or other similar asset transfer authorization arrangements ("SLOA") with qualified custodians in order for us to disburse funds to accounts as specifically designated by the client. With a SLOA a client can typically authorize first-party and/or third-party transfers. If transfers are third-party, AOWM complies with each of the requirements and conditions enumerated below:

1. The client provides an instruction to the qualified custodian, in writing, that includes the client's signature, the third party's name, and either the third party's address or the third party's account number at a custodian to which the transfer should be directed.
2. The client authorizes AOWM, in writing, either on the qualified custodian's form or separately, to direct transfers to the third party either on a specified schedule or from time to time.
3. The client's qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the client's authorization, and provides a transfer of funds notice to the client promptly after each transfer.
4. The client has the ability to terminate or change the instruction to the client's qualified custodian.
5. AOWM has no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the client's instruction.
6. AOWM maintains records showing that the third party is not a related party of AOWM or located at the same address as AOWM.
7. The client's qualified custodian sends the client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, AOWM has discretionary authority and limited power of attorney to determine the securities and the amount of securities to be bought or sold for a client's account without having to obtain prior Client approval for each transaction. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account(s). Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the Client. Clients may limit our discretion by requesting certain restrictions on investments. However, approval of such requests are at the firm's sole discretion.

Item 17: Voting Client Securities

AOWM does not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to our Clients, nor have we been the subject of any bankruptcy proceeding. We do not have custody of Client funds or securities, except as disclosed in Item 15 above, or require or solicit prepayment of more than \$500 in fees six months in advance.

Item 19: Requirements for State-Registered Advisers

Principal Officers

John Dannenbring serves as AOWM's sole principal. Information about John Dannenbring's education, business background, and outside business activities can be found on his ADV Part 2B, Brochure Supplement attached to this Brochure.

Outside Business

All outside business information, if applicable, of AOWM is disclosed in Item 10 of this Brochure.

Performance-Based Fees

Neither AOWM nor John Dannenbring is compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at AOWM has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

AOWM nor John Dannenbring have any relationship or arrangement with issuers of securities.

Business Continuity Plan

AOWM maintains a written Business Continuity Plan that identifies procedures related to an emergency or significant business disruptions, including the death of the investment adviser or any of its representatives.

- 05/2010 - 08/2016, Dannenbring Designs Landscaping, Onsite Personnel Specialist

Professional Designations

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real-world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Item 3: Disciplinary Information

John Dannenbring has never been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Item 4: Other Business Activities

John Dannenbring serves as a “Lecturer of Finance” at the University of Nebraska-Lincoln where he teaches Personal Finance (FINA 260). As an employee of the University of Nebraska-Lincoln, this position comprises more than 10% his overall compensation and more than 10% of his working time (approximately 6 hours per week).

There is no conflict-of-interest present with his role as a “Lecturer of Finance” at the University of Nebraska-Lincoln.

Item 5: Additional Compensation

John Dannenbring does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through AOWM.

Item 6: Supervision

John Dannenbring as Chief Compliance Officer of AOWM, is the sole investment adviser representative. Should there be additional representatives in the future, John Dannenbring would be responsible for their supervision. John Dannenbring is bound by AOWM’s Code of Ethics. Clients may contact John Dannenbring at the phone number on this brochure supplement.

Item 7: Requirements for State Registered Advisers

John Dannenbring has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
